HELM comfort for furniture and walk-in wardrobes

For enclosed, semi-enclosed and front-mounted wardrobe sliding doors HELM offers various hardware systems for all common door weights and installation situations.

For lightweight doors up to 30 kg we recommend the hardware HELM 25 and HELM 28 and for mediumweight doors up to 50 kg the hardware HELM 54. The hardware HELM 64 and HELM 260 are designed for heavyweight wardrobe doors up to 80 kg and heavy duty. Ball bearing mounted rollers guarantee specially smooth-running sliding doors and a long service life.

In order to make the choice of the suitable hardware system easier, you will find an overview in the following table:
